

# ABOUT US

## ► COMPANY

Pacific Silicone Company is a pioneering company in the field of Silicone Oil recycling in Vietnam, making significant contributions to sustainable development, promoting the circular economy model, and protecting the environment.

## ♥ VISION

To lead the way as Vietnam's foremost company in sustainable silicone oil recycling and eco-friendly material production, setting the standard for innovation and responsibility in environmental protection.

## 🎯 MISSION

With a mission to protect the environment and promote a circular economy model, we strive to consistently deliver high-quality products, minimize environmental impact, and build a green, sustainable future for future generations.

# SILICONE OIL RECYCLING TECHNOLOGY

HIGH QUALITY & ENVIRONMENTAL  
PROTECTION

# PRODUCT & SERVICE

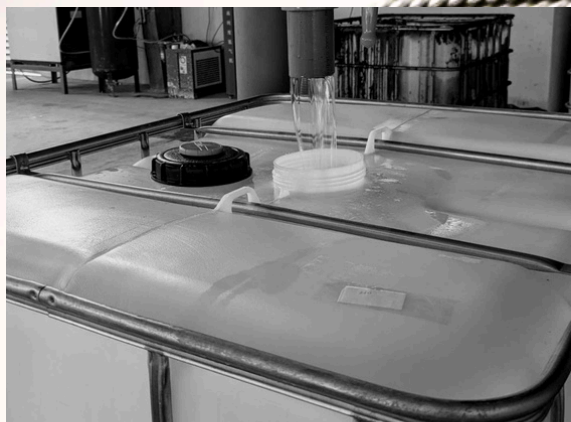

## SILICONE SCRAP PURCHASING

Our factory has been certified by the Ministry of Natural Resources and Environment of Vietnam for meeting environmental protection requirements in the import of scrap materials for production purposes

## SILICONE OIL RECYCLING PROCESS

The silicone oil recycling process consists of the following six steps:

1. Collection and Crushing of Waste
2. Pyrolysis
3. Purification of DMC Oil
4. Production of Silicone Oil
5. Cooling and Filtration
6. Packaging of Finished Products

## DIMETHYL SILICONE OIL 201

Our main product is Dimethyl Silicone Oil 201, a popular silicone oil known for its outstanding properties such as heat resistance, chemical resistance, and non-toxicity

Product	Information
CAS NO	63148-62-9
CHEMICAL FORMULA	(C <sub>2</sub> H <sub>6</sub> OSi) <sub>n</sub>
BRAND	Pacific Silicone
ORIGIN	Vietnam
TECHNICAL SPECIFICATIONS	See the table below

Product Properties	Silicone Oil 201 (PDMS)
Viscosity (25°C) mm <sup>2</sup> /s	5 to 100 000cst ± 5%
Flash Point (open cup) °C	≥ 300
Volatile Matter Content (150°C, 2h) %	≤ 1.0

# CHOOSE US

## GREEN TECHNOLOGY PRODUCTS

## SAFE PRODUCTION AND ENVIRONMENTAL PROTECTION

## PROMOTING THE CIRCULAR ECONOMY

By advancing the circular economy, the silicone oil recycling industry not only contributes to environmental protection but also builds a sustainable business foundation, ensuring efficient resource use and minimizing supply risks.
